

FOREWORD

FOR many years the Montreal Ski Club published *THE MONTREAL SKI CLUB ANNUAL*, which has become recognized as the leading Ski Publication on this continent. At the last Annual Meeting of the Canadian Ski Association it was decided, with the consent of the Montreal Ski Club, to make this *ANNUAL* the official publication of the Association. This number, therefore, is the first under the new regime, and the editors hope that it will be as well received as its predecessors. The support of the various Clubs forming the Association is asked, not only for a good number of subscriptions, but also for advertising, as only by such support will the continued life of the *ANNUAL* be made possible. As the years go on it is hoped that the scope and vision of this publication will be greatly enlarged, and this number, the first in its new dress, is dedicated to all those who love ski-ing and who are interested in developing this wonderful sport along strictly amateur lines. To the publishers, Messrs. John Lovell & Son, Limited, are extended our thanks, as their really unselfish interest has made this publication possible.
