

QUEBEC SKI CLUB

THE past season has been an unusually active and interesting one with this Club. The clubhouse, opened some time ago at Loretteville, about nine miles from Quebec, stimulated a great amount of interest in the Club life. All during the season large parties visited the clubhouse, resulting in a considerable increase in membership and improvement in the spirit of the Club.

To Mr. Charles Durand must be given a great part of the credit for the success of the Loretteville Clubhouse, and the laying out of new trails and ski runs has been in charge of Mr. McOuat who has done splendid work along this direction.

The past season the Club had the privilege of extending its hospitality to a large number of visitors; among them were welcomed Captain A. C. d'Egville, the celebrated continental skier and cartoonist, Mr. Ivan Nelsen, and many other well-known skiers.

One of the most popular tours was the lovely trip to Lake St. Charles and up to the Laurentide Mountain, and the photograph we reproduce was taken on the week-end that we entertained Captain d'Egville and Ivan Nelsen, the former will be recognized standing between two of our prettiest ski girls.

A number of competitions were held by the Club terminating in our Open Championship, the results of which are as follows:—
