That's one of the reasons ski-ing is such grand sport. No matter how *good* you are there's always the unexpected stump, twist, hollow or hillock that can make you emulate the worthy ostrich and leave only wildly thrashing skis to guide the rescue party.

So always play on the safe side and wear a Pal BLUE STREAK Athletic Supporter. An Athletic Supporter is essential in any sport. Not only is it a safeguard against sudden strain—and the resultant danger, but it conserves energy—helps

you to spend a whole day on the snowy hills with fullest enjoyment.

A PAL never chafes or becomes uncomfortable because it is tailored to fit. Its specially soft and extremely flexible webbing prevents wrinkling or binding.

PAL was designed by Bauer & Black Limited, a famous surgical dressing house, to Guard the Vital Zone. Use it for any sport—but specially for the unexpected hazards of ski-ing.
