Up to the snows with

JAEGER

Beside a sunny sea or in a world of glittering snow peaks—Jaeger is still the traveller's best companion. Jaeger Winter Sports Clothes are designed by experts, who have made a careful study of the various resorts at which they will be worn. Every year, Jaeger stylists add some fresh and ingenious turn to their repertory of Winter Sports fashions, introducing new models or revising the old: this year they are particularly proud of their achievement.
