

Vancouver Ski Club

A SKI club's success and progress depends largely upon the support of the individual members of that club. Excellent co-operation in competitions and social functions made the season 1936-37 another red letter one in the history of the Vancouver Ski Club.

A splendid showing was given by our competitors at the Dominion Ski Championships at Banff. Tom Mobraaten placed third in the Jumping, losing second place by only one-tenth of a point to Sverre Kolterud of Norway. Forty members of our club made the trip to Banff to lend their enthusiastic support to the Coast competitors. The tournament was excellently run, and did a great deal towards cementing the already friendly relations between the East and the West.

Our new Club Cabins on Hollyburn Ridge were lent to the Provincial Forestry Department this fall, to house a contingent of eighteen boys who for three months were busily engaged in cutting new ski trails, widening the old ones, and clearing practice slopes for the beginners.

The Club Championships, all events, were held on March 14 and 21. Full results follow:—
