most royally by the Vancouver skiers and we await the pleasure of being able to entertain them at some future date.

We also had our club tournament this spring at which the contestants were too numerous to mention, as our junior membership is at least in the nineties and each competitor was most enthusiastic. It proves that the future of the Club is secure for further outside competition.

Our executive for 1937-38 is as follows:—*President*, A. E. Irwin; *Vice-President*, Bert James; *Secretary*, Jean McCaffery; *Correspondent*, J. Thomson.

Fuji Ski Club

THOUGH our membership has decreased since our inception in the spring of 1934, we felt more confident last season than ever before. This was due to our new and future policy of weeding out the non-active and non-paying members. With this firm foundation and ever increasing winter visitors, our outlook for the coming season seems anything but bright.

The club enjoyed a very active and successful year. Our club was well represented for the first time, both in Zone and home ground (Grouse Mountain) competition. Each of our itineraries, planned at the beginning of the year was fulfilled and supported with large turnouts. Included among them was two days' trip to Mount Rainier during the Silver Skis.

Our fourth general meeting was held on May 25, and our four-time vice-president, Mr. W. Wakabayashi, was elected as our new prexy. With the help of his long experience we have already laid elaborate plans for the coming year.

Every weekend we are busy completing the addition to our cabin to accommodate the ever-increasing guests. Meanwhile, the executives are busy arranging the plans to hold the first tournament between Seattle Japanese

ski colony and Vancouver. For this event Mr. Tada has already donated a handsome trophy.

With the kind and ever helpful support of the local Zone officials, we hope to go over the top this year.

Grouse Mountain Ski Club

ONCE again the Grouse Mountain Ski Club has wound up a great ski-ing season. Eleven years ago the club was formed under many difficulties, and at that time ski-ing was in its infancy in Vancouver. Today, however, ski-ing has captured the imagination of Vancouverites and its popularity is increasing with leaps and bounds. Do you sit with dreamy eyes and gaze yearningly at the mountains? Do you have a hankering to get back on the snow? If so, you too must be a ski addict.

With this transition our club has played an active part. Many young and old people have learned to ski through the efforts of the club's instructors, and good sportsmanship has always been our endeavour. Thus we feel we have helped to promote this great winter sport.

The past season, 1937-38, has been most successful, due to the efforts of our popular President, Gordon Loutet, and his hard working executive.

Snow fell early in November, but due to warmer weather setting in again, ski-ing was not at its best until January. Throughout the winter the average depth of snow was less than usual, with about ten feet on the Grouse Plateau and fifteen feet on the back mountains.

Before the snow came, however, the members worked nobly in repairing the clubhouse and in cutting the winter's supply of wood. There was a great spirit of co-operation even at this early stage of the season. Ski trails and hiking trails were also put into better condition with the help of members from the other clubs on Grouse Mountain.
